## 1 OmniPCX Management Console

### 1.1 OMC

|             | Windows 2000<br>SP4 | XP SP3    | VISTA<br>32   64 | Windows 7<br>32 / 64 | Windows 8 / 8.1<br>32 / 64 |
|-------------|---------------------|-----------|------------------|----------------------|----------------------------|
| OMC 711     | <b>OK</b>           | <b>OK</b> | <b>OK</b>        | <b>OK</b>            | <b>NO</b>                  |
| OMC 8xx     | *                   | <b>OK</b> | <b>OK</b>        | <b>OK</b>            | <b>NO</b>                  |
| OMC 900     | *                   | <b>OK</b> | <b>OK</b>        | <b>OK</b>            | <b>NO</b>                  |
| OMC 910     | *                   | <b>OK</b> | <b>OK</b>        | <b>OK</b>            | <b>OK</b>                  |
| OMC 920/921 | *                   | <b>OK</b> | <b>OK</b>        | <b>OK</b>            | <b>OK</b>                  |
| OMC 10.0    | *                   | <b>OK</b> | <b>OK</b>        | <b>OK</b>            | <b>OK</b>                  |

Note: LabelSet tool 310/4.1 has the same compatibility rule than the latest OMC version.

### 1.2 DBAdapter

| DBAdapter | Windows 2000<br>SP4 | XP SP3    | VISTA<br>32 / 64 | Windows 7<br>32 / 64 | Windows 8 / 8.1<br>32 / 64 |
|-----------|---------------------|-----------|------------------|----------------------|----------------------------|
| 2.3.0.0   | *                   | <b>OK</b> | <b>OK</b>        | <b>OK</b>            | <b>OK</b>                  |

(\*) Not tested / not supported.

Note

Old OMC version are no longer supported - **it is recommended to use OMC 10.0**

## 2 LoLa

|           | Win 2000<br>SP3 /SP4 | XP SP3    | VISTA<br>32 / 64 | Windows 7<br>32 / 64 | Windows 8 / 8.1<br>32 / 64 |
|-----------|----------------------|-----------|------------------|----------------------|----------------------------|
| LoLa R400 | <b>NO</b>            | <b>OK</b> | <b>OK</b>        | <b>OK (1)</b>        | <b>OK (2)</b>              |

(1) Windows 7 since version 400/03.1

(2) Windows 8 since version 400/11.1

Warning

Starting with the release 10.0 of OXO it is mandatory to use LoLa 400/15.1 or higher. Prior LoLa version will identify the R10.0 as a release 1.0 and therefore will not permit to load all software items ("Internet access will be proposed instead of "ACD/MLAA").

### 3 PIMphony

| Operating System                        | PIMphony | PIMphony IP | TSP    | SPI for Microsoft TAPI Server |
|---|----------|-------------|--------|-------------------------------|
| Windows 2000 Server (SP4) [32-bit]      | OK       | NO          | NO     | OK                            |
| Windows 2000 Pro (SP4) [32-bit]         | OK       | OK          | OK     | NO                            |
| Windows Server 2003 (SP1, SP2) [32-bit] | OK       | NO          | NO     | OK                            |
| Windows Server 2003 R2 (SP2) [32-bit]   | OK       | NO          | NO     | OK                            |
| Windows 2008 server [32-bit]            | OK       | NO          | NO     | OK                            |
| Windows 2008 server [64-bit]            | *        | *           | *      | *                             |
| Windows 2008 R2 server [64-bit]         | OK       | NO          | NO     | OK (4)                        |
| Windows XP [64-bit]                     | OK       | NO          | NO     | NO                            |
| Windows XP Pro SP3 [32-bit]             | OK       | OK          | OK     | NO                            |
| Windows XP Home SP3 [32-bit]            | OK       | OK          | OK     | NO                            |
| Windows Vista (SP1 SP2) [32 bits]       | OK (1)   | OK          | OK     | NO                            |
| Windows Vista 64-bit Edition            | NO       | NO          | NO     | NO                            |
| Windows 7 [32-64 bit]                   | OK (2)   | OK (3)      | OK (3) | NO                            |
| Windows 8 [32-64 bit]                   | OK (5)   | OK (5)      | OK (5) | NO                            |
| Windows 8.1 [32-64 bit]                 | OK (6)   | OK (6)      | OK (6) | NO                            |

(\*) Not tested / not supported

(1) VISTA SP1 starting with Build 1840 – VISTA SP2 starting with Build 2065

(2) Starting with Build 2065

(3) Starting with Build 2075

(4) Starting with Build 2100

(5) Strating with Build 2925

(6) Starting with Build 3115

Note

Old PIMphony version are no longer supported - **it is recommended to use release v6.8**

## 4 ACD Application

|        | XP SP3 | VISTA 32 bits SP2 | Windows 7 32 / 64 SP1 | Windows 8 32 / 64 | Windows 8.1 32 / 64 | Windows 2008 server R2 - SP1 | Windows 2012 server |
|--------|--------|-------------------|-----------------------|-------------------|---------------------|------------------------------|---------------------|
| 3.0.0  | OK     | NO                | NO                    | NO                | NO                  | NO                           | NO                  |
| 4.0.0  | OK     | OK (1)            | NO                    | NO                | NO                  | NO                           | NO                  |
| 5.0.0  | OK     | OK                | OK2)                  | OK2)              | NO                  | OK2)                         | OK2)                |
| 6.0.0  | OK     | OK                | OK                    | OK                | NO                  | OK                           | OK                  |
| 7.0.0  | OK     | OK                | OK                    | OK                | NO                  | OK                           | OK                  |
| 8.0.0  | OK     | OK                | OK                    | OK                | NO                  | OK                           | OK                  |
| 9.0.0  | OK     | OK                | OK                    | OK                | NO                  | OK                           | OK                  |
| 9.1.0  | OK     | OK                | OK                    | OK                | OK                  | OK                           | OK                  |
| 9.2.0  | OK     | OK                | OK                    | OK                | OK                  | OK                           | OK                  |
| 10.0.0 | OK     | OK                | OK                    | OK                | OK                  | OK                           | OK                  |

(1) Starting with version 4.0.0 – 4.12.01  
 (2) Starting with version 5.0.0 – 5.13.01

Note

Old ACD packages are no longer supported - **it is recommended to use version 10.0.0**

## 5 Office Link Driver

|     | Win 2000 SP4 | XP SP3 | VISTA 32 bit | Windows 7 32 / 64 | Windows 8 / 8.1 32 / 64 | Windows 2008 32 bits & R2 SP1 | Windows 2012 server |
|-----|--------------|--------|--------------|-------------------|-------------------------|-------------------------------|---------------------|
| OLD | OK           | OK     | OK (1)       | OK (2)            | OK (2)                  | OK (2)                        | OK (3)              |

(1) Since and including OLD 2.3.0  
 (2) Since version 2.3.3  
 (3) Since version 2.3.6

## Follow us on Facebook and Twitter

Stay tuned on our Facebook and Twitter channels where we inform you about:

- New software releases
- New technical communications
- AAPP InterWorking Reports
- Newsletter
- Etc.

## Submitting a Service Request

Please connect to our [eService Request](#) application.

Before submitting a Service Request, make sure that:

- In case a Third-Party application is involved, that application has been certified via the AAPP
- You have read through the Release Notes which lists new features available, system requirements, restrictions etc. available in the [Technical Documentation Library](#)
- You have read through the Troubleshooting Guides and Technical Bulletins relative to this subject available in the [Technical Documentation Library](#)
- You have read through the self-service information on commonly asked support questions, known issues and workarounds available in the [Technical Knowledge Center](#)
